

## P R E S S   R E L E A S E - For immediate release

**Naas, Co. Kildare Ireland – June 8th, 2010**

### **Computer Troubleshooters Kildare East**

Computer Troubleshooters Ireland is announcing the opening of a new office in Kildare under the owner management of Paddy Kelly. Paddy will support business, schools and residential customers in east Kildare and adjacent areas from his base in Ballymore Eustace. Paddy is very experienced in dealing with customers as a Field Service Engineer and latterly has operated his own technical business in Naas.

“I congratulate Paddy on opening his Computer Troubleshooters office in these tough times and I know he will provide a first class personalised technical support service to all customers in his area”, says Enda Folan, National Master Franchisor. He joins our Ireland-wide organisation with offices in Dublin, Cork, Galway, Louth, Donegal and Laois-Offaly.

Headquartered in the USA, Computer Troubleshooters is a unique computer service franchise specialising in helping residential, home office and small businesses with all their **callout/onsite** computer-related needs: software/hardware troubleshooting, upgrades, repair, consulting, anti-virus/spyware, wireless/networking, broadband/internet, website design, made-to-order new & refurbished systems, service/maintenance contracts and training services.

Says Folan, “Computer Troubleshooters is more than just a computer service company, it works as part of the customer's staff to help their business grow through the most effective and efficient use of technology. By combining the friendly, personal service of small, locally owned, community based franchises with the backup support and knowledge of a large international team of experts, Computer Troubleshooters can offer its' customers a unique solution for their computer service needs”.

Thirteen years old this year, Computer Troubleshooters has expanded rapidly to become the World's and Ireland's largest Computer Technical Support Franchise with nearly 500 offices in 27 countries across the world. Computer Troubleshooters Ireland plans to open as many as 12 new offices in the Republic and Northern Ireland over the next 2 years and is seeking potential franchisees in all parts of Ireland, both North and South.
